May it please the court, this, gentlemes of the jury, is a controversy between Mr Barr, a secanor of this State, and once an all armon of the city, and Mr. Erben, a citizen of New York, forcesty a resident of the city ward, represented by Mr. Barr. You all recollect the corruptions of the late Commer Connott. You all recollect that public attention was directed to the multiplication of the city government in 1881 and 1892. administration of the city government in 1881 and 1882. We live in a country governed by the people whey select their law makers and their rulers; and when men come forward as candidates, and submit their character to choose in, there ought not to be any restraint impose a pour their right of criticising it. I mean to say that a party is secured in speaking against a public man who is charted with offeces by public cumer. We objects to the matter of the gas contract being brought up, because it was unnecess ry to occupy your time with irrelevant matter. But we do not object to hear whether brown ever said anything against Barr. No, they wen't ask that. We are pretared to say that Frben news expressed anubit against the Barr until the time is question and that he would not have done so then if Barr has rot offered blueself as a candidate for public office. We expect, gent encen to crove all this. If we do so wear black you for the entre exquittal of the defendant. The other side have asked for vindictive domeses. Objected to on the ground that a written statement cannot be proved without put ing the document in evidence, and objection over ruled.

Witness—I don't recalled whether I stated any sum; from my recollection now I think the sum A. M. C. Smith agree to pay was between \$100 and \$200; I know that I offered Mr. Barr \$150; he wasted more; I think I paid him \$250.

Q In that all you ever paid him for the appointment of A. M. C. Smith?

Barr to fill up a check; I saw him fill up the check, are I signed it; I don't know that much was said about the balance, but it said I was aready to make up the difference at any time; the appointment was filled up at Alkarman Sarr's stake, in Frahili strees; I received the appointment; I to not know who wrote the name of A. At about 8 o'clock last evening a fire was discovered in the third story of the new building No 102 Walker atreet, occupied by Clark's patent flouring mills. The fire when first discovered appeared to or ginate by the window on that floor, but in consequence of some difficulty occurring with the rest of Fourison Hose carriage, it was several minutes before water could be procured, and by the time the water came, the fire had advanced from that floor to the floor above, and spread rapidly throughout the building, to No. 7 Canal street. Soon after the fire extended to Noe 9 and 11 Canal street. Soon after the fire extended to Noe 9 and 11 Canal street.
